**DEALERSHIP EMPLOYEE VEHICLE PURCHASE PROGRAM**

Due to some discoveries during a recent dealership audit by Chevrolet, it has become necessary to clarify the guidelines by which employees qualify for the special entitlement under the “Dealership Employee Purchase Program”.

Below are the qualifications which must be met in order to be eligible for the employee entitlement:

- You must be a current employee of Criswell Automotive.
- The vehicle must be for personal use. This means no vehicles can be titled in a company name.
- The vehicle must be tagged and titled in the employee’s name. The spouse is the only other person who may be included, but only if the employee’s name also appears on all tag and title paperwork.
- You must be employed for a minimum of 6 months to be eligible for this benefit.

Employees must meet all of these qualifications in order to be eligible for the program. There are no exceptions. All employee purchases under this plan will be audited. If you have any questions regarding this program, please see one of the New Vehicle Sales Managers or the General Sales Manager.
